

Invitation

Stakeholder Conference: Nature-based solutions for sustainable nutrient management in agriculture towards eliminating soil, water and air pollution by nitrogen and phosphorus emissions.

We are pleased to invite you to a **Stakeholder Conference** co-organised by the EU-funded research projects ECONUTRI, TRANS4NUM and PESTNU.

The Conference will be held in Athens, at the Library Amphitheater of the Agricultural University of Athens on the 27th of September 2024.

This conference aims to foster collaboration, knowledge exchange, and innovation across various sectors of the agricultural production chain.

The main objective of the conference is to bring together distinguished speakers from **European countries and China**, representing diverse segments of the agricultural industry:

- ❖ **Growers:** Exchange knowledge and experience about cutting-edge cultivation techniques for sustainable nutrient management in agriculture while maintaining/increasing the competitiveness of European farmers
- ❖ **Advisors:** Explore strategies for implementing nature-based solutions in plant nutrient management towards transformation to a more sustainable agriculture.
- ❖ **Industry Representatives:** Discuss technological advancements, supply chain optimization, and market dynamics supporting nature-based solutions in plant nutrient management.
- ❖ **Researchers:** Share groundbreaking research findings, innovations, and best practices to effectively control pollution of soil, water, and air by nutrient emissions from agriculture.
- ❖ **Public Sector Representatives:** Collaborate on policy development, regulatory frameworks, and industry support aiming to mitigate the environmental impact of nutrient emissions in agriculture.

The Conference is organised as a satellite event of the *1 International Symposium on Protected Cultivation, Nettings and Screens for Mild Climates*, which will take place in Athens from 23 to 26 September 2024, and is organised by the ISHS and the Agricultural University of Athens (<https://promicli.athens2024.org/>). The official language of the conference will be English and the participation is free for everyone.

We look forward to welcoming you to Athens at the Agricultural University of Athens for an enriching and impactful conference!
